Once upon a time, in the shining land of Radiantine, a strange spell declared that only princes could wander through forests, make armor, and speak boldly in council. Princesses were confined to candlelit towers and praised only for their delicate clothing and graceful manners. However, one daring princess, Aurelia, rejected the spell. She realized that even the bravest prince could only dream of achieving his goal under strict rules that restrained true emotion.

Aurelia found allies: the wise Witch of the Western Marshes, looked down on for her magic, and the wandering Bard of Midnight, born into poverty yet overflowing with talent. Together, they confronted the Dragon of Outdated Traditions, who sealed off leadership opportunities. Their magic and talent chipped away at the dragon's scales. Slowly, the land of Radiantine awoke from its **long sleep of old beliefs**, freeing knights and maidens alike to pursue their goals. When the dragon finally dissolved into sparks, they were extremely joyful. No longer about princesses versus princes, the tale had become a shining testament to unity, where every voice, every talent, and every dream were celebrated. And so, magnificent Radiantine soared ever since under this radiant new dawn, proving that equality benefits all who live beneath its brilliant sun.

- 41 According to the passage, which of the following best describes Princess Aurelia's attitude toward the strict rules?
- (A) She readily accepted her confined role.
(B) She wanted to become the dragon's ally.

When the Michelin Guide came to Tokyo for the first time in 2008, they planned to honor a number of restaurants with multiple star ratings. So, imagine how shocked they were to be greeted at the door by chefs with their arms crossed, refusing them entry. “No reporters, no cameras, no Michelin stars,” they were told, in no uncertain terms. And to this day, they haven’t **budged**.

But why? From ramen to omakase sushi, Tokyo isn’t short of restaurants that deserve a star or two. For one thing, Michelin stars would fill their reservation books for months in advance, stretch the line of would-be customers around the block all day, every day, and attract discerning eaters from every corner of the globe, which is the last thing in the world most Japanese restaurants want. The practical reason is that sudden fame means their loyal local regulars won’t be able to get a table, and when the fickle culinary tourists run off to chase the next hot chef, they may be left with no business.

But there’s a deeper reason too: Refusing Michelin stars is also about being satisfied with “enough,” which isn’t about success. It’s about knowing what you want, and being satisfied when you get it. Like many things in Japan, providing a service—or knowledge—is a two-way street. Paying in money is only the ante to be allowed in the door. Because the ultimate goal of many Japanese chefs isn’t fame, fortune, or a franchise in every major city of the world. It’s to innovate food for customers who put as much into their appreciation of the chef’s art as the chef puts into the food. Therefore, they operate more like private clubs, and you’re only allowed to eat there if you’re the guest of an established customer or introduced by one. And that’s the kind of relationship no Michelin star can buy.

- 46 What is the main idea of this passage?
- (A) A brief introduction to Michelin guide.
 - (B) A failure that destroyed Michelin stars’ fame.
 - (C) The reasons Michelin stars are refused by Japanese chefs.
 - (D) The impossibility to evaluate Japanese food with stars.
- 47 Which of the following may be the reason Japanese chefs refuse Michelin?
- (A) They don’t think the judges have good tastes.
 - (B) They don’t like speaking foreign languages.
 - (C) They worry that old customers may be pushed away.
 - (D) They fear Western burgers will take the place of sushi.
- 48 Which of the following statements can be inferred from the passage?
- (A) Japanese chefs don’t want to reveal their secret recipe.
 - (B) Besides money, Japanese culture puts extra values in the dining experience.
 - (C) Western tourists will replace the original customers for good.
 - (D) It is hard to cross the culture gap, especially about cuisine.
- 49 According to the passage, what does “**budged**” most likely mean?
- (A) Desired.
 - (B) Rejected.
 - (C) Yielded.
 - (D) Calculated.
- 50 According to the passage, why do some Japanese restaurants run like private clubs?
- (A) To earn as much money as possible.
 - (B) To consider food an art deserving admiration.
 - (C) To receive strange guests every day.
 - (D) To avoid adopting the modern reservation system.
